

# BRAIN MRI REPORT

Patient:	Jennifer Davis	DOB:	11/05/1988
MRN:	55667788	Date:	2024-01-20
Study ID:	MR-2024-0120	Contrast:	Gadolinium IV

## CLINICAL INDICATION:

Headaches, visual disturbances, rule out intracranial pathology

## TECHNIQUE:

Multiplanar, multisequence MRI including T1, T2, FLAIR, DWI sequences

## FINDINGS:

- Normal gray and white matter signal intensity
- No evidence of acute infarction on DWI
- No hemorrhage identified
- Normal ventricular system
- No mass lesions

## IMPRESSION:

Normal brain MRI examination
